A contemporary kitchen with 22-foot tall ceilings presented an opportunity to vary cabinet heights and thus gain visual interest. The integrated refrigerator and freezer allow one to focus on the kitchen design without the distraction of major appliances.

SPECIAL DESIGN FEATURES: A bench is attached to the island tying both seating areas together; windows above cabinets bring nature indoors without losing privacy.

PRODUCTS USED: Brookhaven Cabinetry by Wood-Mode, Colony door style, Lodge finish on maple; Sub-Zero refrigerator and freezer; Gemini oven by Maytag ovens; ASKO dishwasher; Franke sink; Sigma faucet; Baltic Brown granite and Natural Canvas Formica countertops; ceramic tile floor.

PHOTOGRAPHY: Richard Berquist
